

TOY SAFETY

Champ's Rules for Toy Safety

Hi Kids – Toys can be lots of fun for you and your friends when you play with them the correct way. I know I love to play with my doggie toys by following instructions! I want to make sure that you are playing with toys that are suitable for you and that you only use them in the way they are supposed to be used. Here are some rules for you to follow. You can help me protect even more of New York's kids by sharing my rules with your friends.

- ❶ Only play with toys that your parent or adult guardian says are okay. You may want to play with toys that bigger kids have but those are not safe for you if they are not made for your age.
- ❷ Never put toys or parts of toys in your mouth.
- ❸ Always wash your hands when you are done playing with toys.
- ❹ Play with your toys the right way. If you are not sure how to play with a toy, ask an adult for instructions.
- ❺ Never point toys that fly in the air at others.
- ❻ Never put your toys near or in any electrical outlet.
- ❼ Bring broken toys to an adult quickly so you do not get hurt on any sharp edges or parts.
- ❽ Make sure you wear a helmet if you are using a ride-on toy like electric cars, skateboards or in-line skates. Helmets are cool!
- ❾ If any of your toys have strings or rope attached, never put the rope or string around your neck. You can hurt yourself this way.
- ❿ Make sure you pick up your toys when you are done playing with them so no one accidentally trips and falls over them.
- ❽ Ask an adult to print out the Toy Inventory Check list on my kids' webpage so you can fill it out together. Just click on the picture of the toy box! This will teach you all about recalled toys and how to make sure that all your toys at home are safe.
